Outcome-focused design professional with 7 years of experience, known for strong collaboration, refined design craft, and research-driven thinking. Designs with both user impact and technical feasibility in mind.

+ Work experience

Senior Product Designer | TELUS Health

Feb 2021 - Present

Led our clinical and administrative tools team, collaborating with stakeholders, facilitating design reviews, and running research initiatives. Manage and align our Figma and code components, and co-lead our UX community to support tooling, workflows, and experimentation across the org.

- Reduced agent average handle time (AHT) by 8% through more efficient workflows aligned to user mental models
- Consolidated fragmented workflows by identifying inefficiencies and driving research-led improvements
- Contributed to shared component libraries across Figma and Storybook, supporting cross-functional collaboration

Product Designer | Morneau Shepell

Jan 2020 - Jan 2021

- Launched a mobile-first absence reporting platform
- Ran discovery workshops with stakeholders
- Designed mobile-optimized web experiences
- Improved product utilization metrics
- Migrated Figma design system to Storybook (Angular)

Product Designer | Notion.mfg

Mar 2018 - Sep 2019

- Streamlined discovery and purchase flows
- Created branding and marketing collateral
- Created dielines for mobile device skins
